Secretary

Derby Road - AM complained about zig zag to access shared path near Toucan crossing. DCC have agreed to lengthen the dropped kerb. Other comments made that the black tarmac surface on the raised tables look too much like the road surface so doesn't highlight cycle priority. AM also highlighted to DCC that the ridged paving installed at Trevorrow shouldn't be there because it is a shared path.

Holembrook Valley Trail - Member reported Loundsley Green Road underpass closed. AM has taken up this matter with DCC. Members reported a narrow path was allowed under the underpass today.

Avenue site - AM has been told the Campaign will be invited to the next connectivity meeting, date to be confirmed.

Barriers adjacent to Park Road - CBC agree they are incorrectly installed and have instructed contractors to change design.

Cycling through Queen's Park - this have never happened despite CBC's assurance they were going to implement. DCC now say that they can't pay for the short section of new path required near the bridge.

Items

EMCF Meeting - not now in May 2017, probably autumn 2017.

Women's Tour of Britain - AM explained timetable for the day and that Campaign could have a stall. Possibility of a cycling 'event' in the Queen's Park 10.45 - 12.15. SC suggested recreating the old photo of cycle race start.

Events for 2017 - May Day stall (1st May), possible stall on June 10th, NV suggested he can organise a 'Cycle in Style' in September. AM said he had seen that Vintage Tea Rooms are starting to show films and wondered if we could have an event there. NV said they are going to create more of a cycling theme to the cafe with bikes hung on the wall etc.

AOB

PB and BS gave apologies for next meeting.

Date of next meeting 11th April 2017
