Name

Steve Lismore (Labour Party)

Constituency

Walton and West

Chesterfield cycle Campaign supports the creation of a joined up network of cycle routes in and around Chesterfield with segregation from vehicles and pedestrians.

Do you support that statement?

Yes

We are interested to here your reasons.

I am a keen cyclist myself, owning both a road bike and mountain bike and using them whenever I can. I would like to see more and more people taking up cycling but this is only going to happen if prospective cyclists feel that they will be safe

Derbyshire County Council has almost completed a cycle route from the south of Dronfield to Tupton & the 5 Pits Trail and have recently consulted about creating an east west route from the Royal Hospital to Brookside.

Please let us know your thoughts about these two routes.

I am a keen cyclist myself. These are good aspirations but they need to consult properly on them. We want to take all citizens with us and find routes that work for everybody.

Both of those routes use the 'station link' walking and cycling path south of the railway station. Do you have an idea how many cycle journeys are recorded on that link daily?

Please choose:

Between 25 and 75

Do you agree in principle with reallocation of roadspace to create safe cycling infrastructure?

Not sure

Let us know why

Depends on the particular road. We need to find routes that work for everybody and that create a broad and increasing support for cycling.

Do you already, or would you consider using a bicycle for local journeys around Chesterfield? Please let us know reasons why or why not.

I am a keen cyclist myself, owning both a road bike and mountain bike and using them whenever I can.

Given a climate emergency can cycling play a local transport role?

Absolutely! Not only does cycling reduce carbon emissions but it is quiet and improves people's health. A winner on every count!

Please let us know if you think any of these would be useful in Chesterfield from the list below:

Bicycle hire at the railway station

Local cargo bike deliveries

Build Staveley regeneration road

Secure bike parking in town centre

Free bike checks and basic repairs

Free cycle maps

All new developments connected to cycle network

Anythink else you want tell us?

"Try a bike" and "Try an e-bike" sessions for people who haven't ridden a bike for years to show them how good modern bikes and e-bikes are and how easy and enjoyable cycling can be.
